Essential Elements For Strings - Book 1 With EEi: Teacher Manual

Synopsis

(Essential Elements for Strings with EE Interactive). (Essential Elements for Strings and Essential Elements Interactive are fully compatible with Essential Elements 2000 for Strings) Essential Elements for Strings offers beginning students sound pedagogy and engaging music, all carefully paced to successfully start young players on their musical journey. EE features both familiar songs and specially designed exercises, created and arranged for the classroom in a unison-learning environment, as well as instrument-specific exercises to focus each student on the unique characteristics of their own instrument. EE provides both teachers and students with a wealth of materials to develop total musicianship, even at the beginning stages. Books 1 and 2 also include access to Essential Elements Interactive (EEi) , the ultimate online music education resource - anywhere, anytime, and on any device. Go to essentialelementsinteractive.com to learn more!

Method features:

- * Enhanced Starting System
- * Optimum Reinforced Learning
- * Pacing
- * Theory, History, Cross-Curriculum & Creativity
- * Performance Spotlights

Customer Reviews

I ordered essential elements for strings and got essential elements for strings 2000. It will still work

because it is almost identical but I was seriously disappointed because of the almost in that sentence. The student elements are the same in both books so I can still teach my class, but the teachers section has a couple of differences I wanted.

The book it self is great. The major problem I have is the EEi activation code does not work. Make if the whole book useless for Teacher/Student online lessons. Still waiting on a response from company. Will update review once solved.

excellent

Great book for teachers to use when teaching strings. I have learned from Essential Elements before and enjoy the series. My strings methods teacher recommends this book as well.

This is the accompaniment book for the second volume of Essentials for Strings.

The Book itself is excellent as it comes with ideas for grading evaluations for the teacher to use on the student. I personally find these forms very helpful as I come from a Woodwinds background. This is definitely a teacher's manual that helps the teacher teach the student and gives clear expectations. The teacher's manual also matches up with the student's books very well. My only negative comment about this item is that the binding of the book is a plastic and spiral bound. Binding like this, if not taken care of well, will eventually break and deform.

ordered for one of my daughter's college classes. PERFECT!

Probably the best, most commonly used technique book in the string world today. Everything has very clear directions, and it introduces concepts slowly, one at a time. It leaves a lot of things up to the teacher's discretion. I love the use of duets later in the book. I wish the CD accompaniment went farther into the later pieces, and I also wish they discussed bowing techniques a little earlier than they do.
