George Stella is the leading name in low-carb cooking. His low-carb cookbooks are well known not only for inspiring millions of people to lose weight with his family's amazing weight-loss story, but also for how they did it: by cooking and eating great recipes made from easy-to-find fresh foods that anyone can get in their local supermarket. His down-to-earth voice and love of comfort foods have put his books at the very top of every health-conscious person's cookbook collection.

This is an excellent cookbook with easy to follow directions. I made several of the chicken dishes which received rave compliments.

I like the recipes since I'm good cooking with low GI but had to learn cooking with low net carbs. That's a totally different ball game and this book is a winner. When I compared the calories from the book with my app (MyNetDiary), I was a bit baffled. For example, the Salisbury Steak Marsala has 460 cal. in the book, but when I entered the recipe on the app. the serving came up as 656 cal. That's quite a difference, for this recipe over 42% more cal. So, I'm not quite sure who's right? But, now I feel like I may need to double check all recipes.

I bought this cookbook from QVC when it was first available, I'm now back to buy another one!! All of Mr. Stella's books are fabulous and each one gets better and better!!! So far I have made his Cheesy Grits and they were awesome!!! That is going to be one of my go-to's for any time of the day. I have also made the Struesel Blueberry Muffins. Knocked it outta the park!! I shared them at work with my 3 lunch buddies and they were amazed. Today I made Kung Pao chicken and it was awesome. I will definitely be making that again and again. All of George's books are packed full of information on living a healthy, low carb lifestyle. Almost every recipe in the book comes with full color pictures that make you want to lick the pages. There are no "funky" ingredients in any of the recipes. Everything can be bought at almost any grocery store. I have every cookbook that George has ever written, and I must say, they just keep getting better and better. The very first book he ever wrote, is literally falling apart, I've used it so much. so that's why I'm back to buy another one, one to put up and save! Thank you George for your inspiration!! and for the fabulous recipes. Keep 'em coming!!!!

I loved the recipes, very tasty. A very good low carb cookbook.

What can I say....his cookbooks are amazing. Everything I have made so far my family loves even my kid. Yes you do have to take some time to prepare but in the end it is well worth it.

Absolutely love all of George Stella's books....just simply great everyday recipes.....

What I have made so far has been very good. The low carb desserts were really good and easy to make

Love it. Really great recipes. Can't wait to try them all.
