From advice on medication, to their own, personal journeys with acceptance, The Two Bipolar Chicks offer tips on managing depression, mania, manic sex, acceptance, medication, CBT, DBT and ECT, among others, and how not to blow your money. No stone has been left unturned and you will feel like you have just had a conversation with a couple of friends. Wendy K. Williamson blogs for The Huffington Post, BP Magazine's BPHope.com and has written for The Two River Times. Her first book, *I'm Not Crazy Just Bipolar* has been positively reviewed by Publisher's Weekly and National Alliance on Mental Illness' The Advocate. Together, Wendy and Honora run The Red Bank Writers Group and stay sane, as much as possible, under one roof. wendykwilliamson.com twobipolarchicks.com

"The Two Bipolar Chicks Guide To Survival" is outstanding in every way, and best of all it's not your run-of-the-mill, mediocre, and outdated bipolar self help book. Williamson and Rose provide creative, out-of-the-box thinking which makes for interesting and inspiring reading, and while the book's topic is serious, they write with humor when appropriate - that's a huge plus in my opinion."

"In the late 1980s, Dr. Ronald R. Fieve gave us *Moodswing* (Bantam Press, NYC, 1989). His work is still considered seminal in pioneering the utilization of lithium to treat manic depression. In the 90s, Dr. Kay Redfield Jamison of John Hopkins blew the doors open when she self-disclosed her Manic Depressive and removed the stigma for millions of Americans with the publication of *An Unquiet Mind: A Memoir of Moods and Madness* (Alfred Knopf, NYC, 1995). The first decade of the new millennium brought us more scholarly and self-help books on bipolar illness than the past fifty years. Now we have *Two Bipolar Chicks Guide to Survival: Tips for Living with Bipolar Disorder*: a thorough, well researched, systematic and enjoyable resource for

individuals and family members and friends trying to understand, live with, cope with, recover from, heal and thrive with the disease of bipolar illness. Professionals of all disciplines will be thrilled to have their work as a resource.

—Laura Madlyn Harrison, MA, LCADC, CLEM

The first thing I asked Wendy after I read the book is, 'Can I send this to my daughter' right now!?"
