Survival In The Arctic And In Cold Territories: Elementary And Advanced Survival Tips In The Tundra, Taiga And Polar Regions

Synopsis

Survival in the Arctic and in cold territories
Elementary and advanced survival tips in the tundra, taiga and Polar Regions
This is my seventh collection of tips for survival in the wild. In this book we will touch on the issues of survival that are related to the territories beyond the Arctic Circle. Features of the Far North require a special approach to the problems of survival in the wild and, in the frequency, the fight against cold. In this edition I have given a lot of notes and recommendations, which relate to practical issues of survival in the Arctic. Enjoy reading!
Content: Tundra Animals
Animals of taiga
Plants
Travels
Diseases arising in cold climates
Search for water
Searches for food
Personal clothes
Shelters
Preparation of a campfire
Practical recommendations
10 rules for survival in the forest in winter
