Who Cut The Cheese? (Doctor Proctor's Fart Powder)

Synopsis

Large helpings of whimsy, humorous black-and-white illustrations, and the occasional fart joke provide plenty of silliness • (Booklist) in the third Doctor Proctor adventure from New York Times bestselling author Jo Nesbø. Nilly, Lisa, and Doctor Proctor are too busy inventing things to watch TV, and everyone says they're missing out on the hot singing competition. But then Nilly and Lisa notice that their friends and family are acting really weird. And the only people acting weird are the ones watching TV. What's going on is WAY bigger than a singing competition. It could mean the end of the world. Or a silent but deadly could save everything! Let 'em rip.>

In this follow-up to Doctor Proctor's Fart Powder (2010), there's more Norwegian farce as Nilly, Lisa, and Doctor Proctor must overcome evil using their incredible inventions, including a powder that causes eruptions of the supersonic variety. This time creatures from outer space, using a television singing competition, take over the Norwegian government and threaten war with Denmark. The advantages of a constitutional monarchy are revealed as the king steps in and saves the day. Some readers may find that the length of the book is not a good match for the frothy plot. Still, large helpings of whimsy, humorous black-and-white illustrations, and the occasional fart joke, provide plenty of silliness. Funny, funny, funny. I'm 77 but enjoyed it as much as a kid!

I am continually surprised how an author who writes the Harry Hole novels is capable of such inventive and funny children's books. This is as good as the others in the series. Very clever, very funny!
