Customer Reviews

Doyenne of ribbonry Ellie Schneider has filled her lovely book with dozens of pretty projects: home-decor items, bridal creations, fashion accessories, and special-occasion pieces. Once the exclusive province of 17th-century French nobility, ribbon is now available to everyone in a seemingly endless array of color, patterns, and styles. Follow these clear step-by-step instructions to master the basics of ribbon crafting, and create elegant pillows, faux flowers, embroidered linens, bridal headpieces and wedding decorations, holiday and party ornaments, and more. Good color photos and detailed instructions make it easy every step of the way. --Amy Handy

This book covers some aspects of "Ribbonwork". Easy to follow with illustrations and explanations of various Ribbonwork techniques. Has different projects to try with instructions and pictures to guide you along.

I am happy with this purchase

Haven't tried this yet, but it looks as if it will give me some great projects for gifts and some great ideas.

Very nice selection of patterns and instruction on ribbon manipulation.

Great book, lots of fun projects - origami for flowers

This book has wonderful projects and ideas for crafting with ribbons. It was written by Ellie Schneider (now Ellie Joos), who is an expert in the field.

I love this book! The pictures are wonderful and the instructions are easy to follow. The finished products are beautiful.

This book of course, uses only Offray ribbon, but the ideas are wonderful regardless of which company's ribbon you have on hand. The projects offer great ideas and are usable in today's crafting. The higher end ribbon & trims Offray offers are beautifully used in some of their craft ideas.
