With more rice recipes to choose from which are surely delectable, this really is the ultimate rice cookbook. Just like any other cookbooks written by Lorie Dulcie, the recipes featured here are accompanied by pictures and nutritional value table that are of really great help for the readers. The recipes are seems undoubtedly delicious and easy to follow. Though it needs more ingredients, these ingredients are easy to find and are more likely already available in anyone's kitchen.

kitchen. I also love the fact that most of the recipes are complete meals, that is a combination of rice and either protein or veggies. Also, I think that this recipe book is perfect for Asians because they are known to be frequent rice eaters and for other people who wants to take their rice meals to the next level. I highly recommend this one.

If you love rice then this book is definitely for you. I just learnt how to make fried rice, broiled tilapia, sushi rice, japanese fried rice, lebanese rice, thai chicken fried rice, pork fried rice, chickpea curry, sticky coconut chicken and dozens of other recipes with rice as amjor ingredient. The recipes are welldetailed with simple, clear and precise instructions. And to add to that every recipe is accompanied by nutrition facts that make reading this book a great experience. Definitely recommended if you are looking for some awesome rice recipes !

Who doesn't love a bowl of hot delicious rice? Im pretty paleo-diet style eater, but i add rice because i am very active and need the carbs. After trying to eat rice just normally for a while, i started to get sick of it. This book definitely changed that! Great recipes in here and with the added nutrition facts, i know how many carbs i am getting per serving. Highly recommended!

As someone who eats rice often, like it is bread, I got bored with the few ways I knew how to make rice. So I downloaded this book because it caught my attention with its claim on all the different ways you can prepare rice. And after preparing some rice dishes that I never tasted before, following the instructions in this book, I am very pleased with the results. The book is as advertised containing delicious, easy to make rice recipes that anyone can follow.

Hoping for some basic rice recipes I was pleasantly surprised by what I found behind the cover (I don't know what the term would be now that everything is on the kindle). This book is packed with unique and delicious recipes that are sure to be a hit. The book has a lot of great recipes and all of them have easy to follow steps and most use ingredients found at any grocery store. Delicious!

Rice lovers will want to get their hands on this one. I loved the variety of recipes included that give you a taste of something from every part of globe. I actually didn't realize how many variations of rice dishes there are out there and how each one can have an entirely different taste. This book makes me want to include this simple staple with every meal!

Very good! Not some short book with some recipes, but so many of them that it will probably take the whole 2015 to prepare them all. What I really liked is the nutritional value at the end of each recipe. This helps a lot. Also all the recipes come with pictures. What can I say, a must have book if you eat rice!

For all you rice lovers out there, this book has a lot of recipes that will surely get you running to the kitchen and trying them out. What's more, these recipes come from different cuisines like Chinese and Thai. Grab this book and enjoy flavorful meals for the whole family.
