Universe: Exploring The Astronomical World

Synopsis

Explore the stars and planets and beyond through 300 fascinating images. An international panel of experts take you on a journey through man's record of the universe. From ancient cave paintings to animation, Universe is a groundbreaking survey that celebrates the popular subject of astronomy through 300 images created by those who have tried to understand - or who have been inspired by - the beauty and mystery of stars, planets, and beyond. Carefully chosen by an international panel of experts and arranged to highlight thought-provoking contrasts and similarities, the selection includes paintings, photographs, sculpture, animation, prints, sketches, and digital renderings with iconic works by renowned photographers, artists, and astronomers alongside previously unpublished finds.

Book Information

Hardcover: 352 pages

Publisher: Phaidon Press (October 9, 2017)

Language: English

ISBN-10: 0714874612

ISBN-13: 978-0714874616

Product Dimensions: 9.8 x 1.4 x 11.4 inches

Shipping Weight: 1.7 pounds (View shipping rates and policies)

Customer Reviews

"An amazingly eclectic and beautiful set of images. Each image is accompanied by an educated and informative caption. As someone engaged in writing about the interface of art and astronomy, I admire the diversity of the selection in addition to the images' individual beauty." - Jay M. Pasachoff, Chair, International Astronomical Union Working Group on Solar Eclipses and Field Memorial Professor of Astronomy, Williams College

Paul Murdin has worked as an astronomer in the USA, Australia, England, Scotland, and Spain. Previously a research scientist and a science administrator for the UK Government and the Royal

Astronomical Society, he now works at the Institute of Astronomy at the University of Cambridge, England, and is visiting professor at John Moores University, Liverpool.
