I love it!

Excellent service and price! Thank you!

Note: sorry to hear that the author of this book has passed away he will be missed by many in the wood turners circle. The was planned out very well with a lot information for anyone to turn there Christmas ornaments. Or gave turners ideas of there own to try. Great book, worth getting and keeping.

Lots of pictures but not much practical instructional information, tips, or advice. Go to YouTube instead

I have enjoyed reading and looking at the great photos in this book. The tips and instructions are easy to follow and will continue helping me improve my woodworking abilities. The projects in the book have given me several additional ideas to keep me busy for a long time. Having some fun gifts on hand for special occasions will no longer be a problem!

This book is the only one of its kind I know of. Including the shipping, it was less expensive than the local book stores. The content is great. Many plans are fully illustrated and lead to ideas of your own. The ornaments make great Christmas presents. Well worth the price.
