Customer Reviews

I ordered these for myself; mistaking them book markers that could be colored. Despite my mistake, I'm keeping them as the colors are so vivid and beautiful that I can't possibly give them up. Anyone who loves Tiffany glass would really appreciate these. The book they come in is smaller than I was expecting (I need to start paying more attention to descriptions before ordering.) but is cute and the book marks are all set on black shiny card stock pages that really help to make the colors pop. In addition, the book marks themselves are standard size (approx.. 6 inches or so). Recommendations: Great gift for any Louis Comfort Tiffany lover, lovely for readers, book lovers, can be gifted individually (I'm thinking of using them as stocking stuffers) or along with a book. Pros: Beautiful, colorful, creative, inspirational, sturdy card stock and vibrant vivid colors, decent price point as well. Cons: I wish there were at least a few for coloring; I suppose I could trace some?

I like to include a bookmark in the Birthday/Get Well/Thinking of You cards I send, and these have

beautiful colors, firm cardstock. Altho they're perforated, I used papercutter or scissors to trim edges if needed. Great price for a dozen, would've cost a lot more to buy them individually at a store.

Lovely set of Tiffany Bookmarks (Dover Publications) arrived and are as pretty or prettier than the picture on .com. Glad to have made this purchase.

Very pretty but realize this "book" is only a few inches and really a booklet. I would give five stars but you have to be very careful removing them and the edges will need trimming. That done however, if you have a laminating machine, they do make really nice little gifts for your bookworms either several at once as a gift or as a little extra something tucked into a book you're gifting.

I originally came across these when I was trying to get my total up to reach the free shipping mark. I was looking for just any bookmark, but then saw these. For the price of less than one thick, fancy bookmark, I got twelve beautiful ones. Sure they're thinner, but I actually think many bookmarks are too thick so they end up falling out of the book, and I had been trying to find thinner ones for a while, but didn't even know if they existed. Of course, I wouldn't recommend these for unusually thick books, like dictionaries, art books, hardcovers with a whole lot of pages, etc. But for your average book, they do. You could always glue two together, to make one thicker one (have one picture on the back, one on the front), or laminate them, etc. to extend the use. But they've been good for me as is. I also got the Degas ones which are great too. Plan on getting some more too. As for the actual pictures, the quality is pretty good. I noticed a review or two complaining of the colors, but I don't find that so. They definitely aren't dull, and are somewhat bright. Sure, they're not ALL my favorites of Tiffany's works, but they're all nice enough, especially for the price, and there are some really beautiful ones in there.

I bought these bookmarks in order to qualify for Free Shipping and because I absolutely adore bookmarks of all kinds. These are very good quality to me and perfect for their job. The fronts of the bookmarks are shiny smooth and seemingly durable, while the backs are raw cardboard. I really enjoy the patterns and can definitely see myself buying more. They are such cute stocking stuffers or little gifts! I think the only downside is that the black borders around each image are not even, but that was easily solved by cutting the borders off. I think for the money, these bookmarks were a great buy.

I was going on a trip and expected many people would like to read the books I brought, so I wanted individual bookmarks for everyone. Yep, they are perforated so you have the bumpies on the sides, but I just needed something unique for guests to use. The colors are bright and the images pretty.

Well stupid me, I thought I was getting bookmarks that needed to be colored, lol. Teach me to read the description details and the reviews, haha! But they are beautiful and we're going to trim the perforations and laminate them to give as gifts.
