Songames For Sensory Processing: 25 Therapist Created Musical Activities For Improving Fine And Gross Motor Skills, Muscle Strength, And Rhythmicity

Synopsis

Fun and engaging for kids ages 3-8, Songames are musical activities for improving fine-and gross-motor skills, muscle strength, and rhythmicity. These 25 therapist-created Songames offer a world of developmental play activities. Plus, the 53-page companion booklet explains how to use music to enhance specific skills, provides a comprehensive list of resources, and triples the number of therapeutic ways to use the games! Includes a 2 disc CD set.

Customer Reviews

"The music is fun and motivating, helping kids (and their parents and teachers) play in purposeful, developmentally meaningful ways." --Diana Henry, OTR/L, creator of the Tools for Teachers and Students videos "Songames is by far the most entertaining, stimulating, relaxing and most requested audio tape...Thank you so much!" Karen M DeHerrera, Parent

Aubrey Lande, MS, OTR received her Masters of Occupational Therapy from Boston University and subsequently worked for The Children's Hospital of Denver. A recipient of a health care leadership postgraduate fellowship from the University of Colorado Medical Center, Aubrey has created and produced a myriad of multimedia treatment tools designed to help kids with challenges attain and maintain therapeutic change. Aubrey created the now well-established "Music for Self Regulation" program for Camp Avanti-St. Croix, a renowned research and training camp for children with sensory processing problems. In addition to practicing occupational therapy using a sensory integrative framework, Aubrey utilizes such diverse treatment modalities as the Interactive

Metronome and Watsu. Aubrey has been singing, humming, babbling, and improvising with sound since, well ... infancy. Bob Wiz is a composer, teacher, musician, producer, arranger, and recording engineer. He received his BA in Mass Media Communication from Cleveland State University and has since become a beloved figure in the musical landscape of Boulder, Colorado. Bob teaches creative music to individuals and groups using techniques garnered from a lifelong interest in the performing arts. In addition to producing over 15 projects for Belle Curve, Bob is a free-lance producer with a special interest in projects related to meditation and mind-body awareness. Since 1996, Bob has taught students as an adjunct faculty member of the Naropa University. Bob expresses his wild side when he plays drums with the Kroku Drummers, an Afro-Caribbean drumming ensemble.

Didn't appeal to my grandkids. I donated it to public library.

This was okay. My child didn't care for most of the songs and I gave it away.

Meets varied needs of those families dealing with sensory processing disorders.

This would be good for a K-5 classroom with kids who have sensory processing issues, however I'm not sure its applicable for me and my three year old son to do together. There might be one or two song activities in this book that we could try but most are for older kids as part of a group.
