Customer Reviews

I found this book very useful with lots of actionable steps for happier kids

Some things I've read before but it is great having them all in one place. And some things I had forgotten so it was good to be reminded of them.

If u only take 1 idea from this book it has been worth the read I enjoyed the common sense approach and took away a few ideas.

Great book!! Loved Jenny's stories.

Good quality product

Crappy book. Ok for people with no parenting skills what so ever.

this book is a must for all parents...I have told my whole family about it and all the mothers of my nieces and nephews agree that the tips really really work. I love the different ways in which the author handles the issues discussed bringing so much love and sensitivity into the parent child interaction process...Jenny is the most brilliant writer and loves to give so much to her books,,,a really dedicated author with so much to offer...congrats Jenny for yet another fantastic book!

Not only is this a practical guide on parenting, it is also book written by a Mother.... and the experience shows.The time with our kids is limited, so we must be the best! If you need help, just pick up this book and you'll be pleased that you did. Every one of the tips is a beauty and I endorse them wholeheartedly as a Dad of 3 .I just love this book!
