Customer Reviews

Thank you so much for the book. It was in excellent condition.

It has been quite a while since I have updated my contemporary praise music, but this book made it easy. There are so many good new songs to choose from! The songs have the chords written above the music making it easier for a guitar player or (in my case) a keyboard player with built-in accompaniment options to play the music with a variety of sounds.

I would have liked more of the older songs and choruses. There are many that I didn't know and didn't like.

This is part of a great three vol. series on congregational worship songs and hymns and would be a good addition to any reference collection.

Great book

I have posted a review for the Vol. 1 edition of All The Best and I want to reiterate my same

recommendation for Vol. 2. The four-part notated vocal parts are great to have instead of just leadsheets with a melody line. There is a great variety of songwriters represented in both books and the arrangements are concise and consistent. For most middle of the road and blended worship settings, this book is a terrific resource.

This book is superb in every way if you're looking for a great selection of worship music.
