Incineration (The Incubation Trilogy Book 2)

Synopsis

After soldiers storm the Bulrush compound, Everly Jax spends four months in prison, uncertain of her friends' fates and determined to figure out who betrayed Bulrush. When she goes on trial for murder, her only hope is a mysterious lawyer who may not have her best interests at heart. After the stunning verdict, she's convinced she has been betrayed again. A daring rescue brings her to a Defiance cell where she is overjoyed to find some of her friends alive. She's caught up in rebel operations until the locusts display a horrendous new adaptation. Realizing she's more valuable to Amerada in a lab than with the Defiance, Everly returns to Atlanta under a new identity to become part of the locust eradication effort . . . and spy for the Defiance. On her own in Atlanta, she confronts an enemy from her past, makes a heart-rending discovery, and learns her parents' identities--which divides her loyalties still further.

Customer Reviews

DiSilverio has achieved a worthy successor to her "Incubation" - first volume in the "Incubation

Trilogy" Her heroine - Jax - is believable within the dystopian construct of a near future North America. Young adult readers who enjoyed the Divergent and Hunger Games series will like what you find here. The story progresses in a very satisfactory way, with some innovative surprises to advance the plot. The concluding book in the trilogy is due this Fall and if it fulfills its promise, DiSilveria will be a new, strong voice in this growing genre.

This series is definitely the sort that you won't want to stop reading after the first, free, book. They are entertaining and edited well (except for the first aid "kid" that the character grabbed in the first book). Strong characters.

New to this genre, but I thoroughly enjoyed the characters, the setting, and the pace of the first two books in the Incubation trilogy. Jax has courage and purpose, and I can't wait to get started on book 3.

Just as captivating as the first book! Great character development, action packed and full of adventure. Once you start reading, you will not be able to stop reading until the last page.

I read the Trilogy and enjoyed each book.

Laura DiSilverio has captured the conflict that arises in an insecure, impulsive teenager who happens to also be a gifted scientist. It is captivating to watch Everly Jax struggle with normal teen challenges while trying to save the world! Good, descriptive writing that pulls you into the story.

Excellent read! Very well written. Suspenseful from start to finish. I read the book in three days, which is a record for me. Just couldn't put it down. I can hardly wait for the next book.

I started this book with trepidation, so afraid it wouldn't hold up. Happily, the author brought together another fantastic story. On my way to Book three with anticipation.
