Customer Reviews

The experts at The Princeton Review have been helping students, parents, and educators achieve the best results at every stage of the education process since 1981. The Princeton Review has

helped millions succeed on standardized tests, and provides expert advice and instruction to help parents, teachers, students, and schools navigate the complexities of school admission. In addition to classroom courses in over 40 states and 20 countries, The Princeton Review also offers online and school-based courses, one-to-one and small-group tutoring as well as online services in both admission counseling and academic homework help.

my teenager took the SAT before and after having this book. The score improved noticeably and my student swear by it to a point that I was ordered to get online and write a "great review for this book" :)

The book is good. I used it for my high school teachers. If you get the kindle version, there is not a pdf version of problem set 5.

great!

Using this in Correctional Institution in addition to other TABE and SAT books. Seems to help!

Thought there could have been more practice
