The Seminary Student Writes

Synopsis

Deborah Core offers practical guidance for beginning seminary students who feel overwhelmed and under-prepared to write the number and quality of papers their courses require. The book begins with reflections on writing as a sacred action, then addresses such practical matters as choosing and researching a topic; outlining, drafting, and polishing a paper; and using the proper format for footnotes and bibliography. Also included are sample papers in MLA and Chicago styles and an overview of grammar and usage.

None.

I was hoping that this book would add a significant dimension to my teaching of composition at a Christian college, but it has not. It is not very much about writing about the things of God at all, and seems to be aimed instead at people who are preparing to enter into college writing for the first time. There's very little here about the distinctive aspects of working with Scripture, commentaries and the like. It would take very little editing to make it about graduate work in any other field of study, and that's just not what I was looking for.

The book is very helpful for my masters degree goal. It's ideas will give me more confidence in my dissertation.

Thank you
