Italy Travel Guide - Best Of Rome, Florence And Venice - Your #1 Itinerary Planner For What To See, Do, And Eat In Rome, Florence And Venice, Italy: Italy Travel Guide, Italy Travel, Italian Travel

Synopsis

Your All-In-One Travel Guide to Italy's Absolute BEST - Rome, Florence and Venice From the time of the Roman Empire, Italy was a country that thrived on excess. Today that has not changed. This romantic country is crammed full of sites, arts, and architecture from every era in history; stunning natural beauty in the forms of lakes, mountains, vineyards, and of course, the Mediterranean sea; the most high-end fashion that has the world flock to Italy every year; and an overabundance of delicious food and dazzling wine. Not to mention its friendly and beautiful people. It can be overwhelming to plan a trip to a country this attractive all around. Best of Rome, Florence, and Venice: Your #1 Itinerary Planner for What to See, Do, and Eat, gives you all the information you need to know about Italy's must-visit cities - Rome, Florence, and Venice, plus other inspiring destinations you'll want to visit, depending on what most interests you. You can choose to dine and wine around Tuscany's wine country, concentrate on historical sites, trailblazing in outdoorsy and active locales, and off-the-beaten paths destinations. Do not be afraid to mix and match for a perfect itinerary made just for you! Inside Best of Rome, Florence, and Venice: Your #1 Itinerary Planner for What to See, Do, and Eat: - Detailed information on Italy's must-see cities: Rome, Florence and Venice- Cannot-miss sights and once-in-a-lifetime experiences - Each city and region's unique culinary delights you'll want to sample- Customizable itineraries based on your interest and length of stay - Practical advice, like embassies, currency exchange, and survival Italian phrases, for visiting Italy Best of Rome, Florence and Venice: Your #1 Itinerary Planner for What to See, Do, and Eat, is truly the only travel guide anyone needs to plan a trip to Italy! Customer Reviews

Well, if I am planning on going anywhere out of the country, I am lost in the process of trying to know where to begin. Because I don't know the culture, the language or anything about the city or country that I am planning on visiting, I feel its best to do a lot of research before planning the trip. For instance, if I am going for 5 days and I don't know that a specific place is only open on specific days, than I can waste valuable time getting to that place and then having to recalculate the day and next planned activity. This guide goes as far as to explain the sites that are there to see, some basic history of that site, and some details you may need on that site, then they let you know a sample itinerary for say a 3, a 5, or a 7 day trip. It also goes into exchange rates for your money, and visa information. Then it also lets you know some cultural things such as simple etiquette and important customs to know. Also, it gives you some frequently used phrases and things to use to basically communicate once in the city. It is quite comprehensive for the sake of vacation purposes and I would certainly recommend this as a way to know what you are getting into, and plan the trip prior to departure. I did receive this travel guide at no cost to me in exchange for my honest and unbiased review and opinion.

This book is great, what I love most about it is how it gives you a history of each place, so that you know why you are there and what happened in each place. What this book also gives you, which is in my opinion a great gift, an example itinerary for 3, 5 or 7 days. That way you can know what is open on certain days instead of wasting your days. I like the fact that in the book there are plans that you can help base your own trip off of. It helps especially if you do not know the language of the country because that way you have everything planned out and you wont be wandering around lost and have to ask someone who only speaks Italian where to go. This book has so much information packed into it that you should never need to feel lost or stupid while in Italy. There are so many references and guides that you will be an expert by the time you leave. I am a major history buff so

hearing more detailed history about smaller places around Italy is great and when I finally get to go this book will be so great to have with me. I always am wanting to know the History of a place and this book gives you a brief yet precise history that you will be able to relay the message onto the people you are with. I received this ebook for free in exchange for my honest opinion and unbiased review.

These are really thoughtful travel guides. The authors think about how most of us are likely to travel and make recommendations accordingly. For these cities, they first discuss must-see sights that everyone wants to take a photo in front of: your Pantheon, your St. Peter's Basilica. After that, their built-in and customizable itineraries ask you to decide where you want to go. If you are a history buff, they send you to Ostia Antica near Rome, for a glimpse of a preserved ancient Roman town that sounds way cooler than Pompeii. If you are into a small town with that romantic European vibe, they send you elsewhere. There is a different and authentic experience in these guides for everyone.

I have been to other European countries, but I haven't yet been to Italy. Italy is one of the places I want to visit next. However it's so big, there's a lot to see and do. This guide breaks down the major cities like Rome and Florence, however it does recommend visiting smaller out of the way places, especially for food. Speaking from experience, this is true. Some of my best memories from my European trip were those in small towns. The guide also makes suggestions for restaurants and places to stay based on price. It also makes itinerary suggestions based on the stay of your visit. I like how the author mentions high points of places to visit, yet mentions the charm of the not so popular towns as well. I really liked the historical background to most places and why you should visit there. Overall, this guide is helpful and interesting. Aside from a few errors, this guide is well written. Item received at a discounted rate in exchange for an honest unbiased review.

Wow, the amount of information in this guide shocked me. I would love to travel one day out of the country with Rome, Florence, and Venice being on my must see list of places to go. I honestly wouldn't really know where to start on my own, but with this guide I wouldn't have a problem at all! It's so easy to use and there is even a how to use guide section, just in case you don't understand it. I love that it also tells you important customs you might need to know and simple etiquette for the area your traveling too. It also lays out a sample choice of 3 or 5 days itineraries, things to see, places to eat, etc... I also like that it doesn't just send you to over run tourist traps like some guides

do, this is a very well thought out guide and well worth every cent. If your child ever has a report due on any of these cities, this would also be a great book to use! Disclaimer: I got this product at a discount in return for my honest review.

This is every traveler's dream if you are going to Italy! There is nothing you can't find or learn from this guide....there is even a "how to use this guide" section, lol! For any or every area that you want to visit, this guide gives you a choice of 3 or 5 days itineraries, and then spells out the best places to stay, what to see, where to eat and the top experiences that area has to offer. If you are unfamiliar with the area you are wanting to visit, it gives you an overview just to educate you and bring you up to speed. It gives you exchange rates, Visa information and essential Italian culture to know. I would highly recommend this pocket guide - I think it is an essential item to have the most enjoyable, informative trip possible. I received this ebook for free for an honest, unbiased review.
